Q: What's the difference between a gun and a whiny liberal?
Guess the correct answer at our March luncheon and win a prize!

President's Message

By: Brandy Meeker

We had such a dynamic February meeting! Dr. Donohoe was so full of information. Bodily autonomy is the most fundamental of rights. There were some links that he mentioned in his speech, they are all on the [homepage of our website](#).

Our after-lunch speaker got sick at the last minute and sent her sister to pinch hit for her. And boy did she knock it out of the park! Thank you, Amarissa Cubana for leaving us inspired and hopeful for the next generation.

By the time we meet again the primary election will have come and gone. By now we all have our favorites and have made up our minds. No matter what happens, we must put aside our differences and come together to elect Republicans statewide. The Democrat reign of terror and incompetency in our state has to end. As California goes, so goes the nation. Good or bad. Our economy is so large that the leftist policies dreamed up and passed in Sacramento don't stay there. Companies and entire industries change to meet those laws and then take those changes nationwide. Let's elect Republicans and stop the madness at the source. It is time to turn California back into the envy of the world, instead of the butt of all jokes.

Pam Barret and others are working very hard to get enough signatures to get a new proposition on the ballot for November. [Protect Kids California – We Are Parents On A Mission To Protect Children](#). Getting enough signatures to qualify should be at the top of our to-do list. The window is short, and we need help! Polling shows that this is a true bipartisan subject. We must protect our children. If you want to help with the effort, please contact Pam via text at 951-587-5425 or email at dpbarret@gmail.com

Of equal importance is a ballot initiative being sponsored by Congressman Kevin Kiley to repeal Prop 47. You know Prop 47 as the bill that turned our state upside down by eliminating bail, making most drug offenses misdemeanors and raising theft limits to \$950 before legal action is taken. You can go online and download your own petition and get your friends and family to sign. Repealing this bad law is key to turning California around. [Make Crime Illegal Again | Capitol Quagmire \(electkevinkiley.com\)](#)

We are looking for someone to be a co-chair for our membership chair. Please contact me if you are interested in this volunteer opportunity. president@tvrwomen.org

This month we will be featuring the Epoch Times documentary No Farmers No Food. Our after-lunch speaker will be Darcy Burke from Elsinore Valley Municipal Water District. If you missed Darcy when she spoke to us last time, you missed a very informative meeting. Water is the foundation of all life; something we cannot live without. What Darcy has to tell us will complement the film very well. You won't want to miss it again.

If you require a vegetarian or gluten-free meal please let us know.

Many of you may have received a mailer this election season with candidates for the Republican Party of Riverside County Central Committee. Three of our board members are running for this position, in two different districts: Brandy Meeker and Jessica Christopher in District 71 and Billie Smith in District 36. This mailer also features Chuck Washington, Mahlia Williamson and says to vote YES on Prop 1. No one in our organization would ever advocate for either of those candidates and we firmly believe everyone should vote NO on Prop 1.

These mailers were made without our permission or knowledge. We are just as perplexed and appalled as those of you who have seen them. Please rest assured that our values are the same as they always have been. We remain dedicated to limited government and conservative values.

We invite any questions you may have. You can email us at info@tvrwomen.org

Alongside becoming a member is volunteering. Although you don't have to be a member to volunteer. Volunteering Weaves Us Together.

"The best way to find yourself is to lose yourself in the service of others."
– Gandhi.

"Volunteers do not necessarily have the time; they have the heart."
– Elizabeth Andrew.

"We cannot live only for ourselves. A thousand fibers connect us with our fellow men." – Herman Melville.

Helping others is the idea and the primary goal of volunteering. Volunteering is a great way to meet new people, and share your talents, learn new skills and puts you in the position to make an impact in society and your community.

NO FARMERS NO FOOD

"No Farmers No Food: Will You Eat The Bugs?" is an Epoch Original documentary exposing the hidden agenda behind global "Green Policies," the untold stories of farmers forced out of business, the disruption this will have on our food supply, and why edible bugs are suddenly being pushed to the fore as a "Global Green Solution."

This documentary is important for everyone to watch, not just for knowing what's on your dinner plate but also to have the knowledge to prevent another man-made famine in the future and protect your freedoms and liberties.

Darcy Burke

From the board of directors of the Elsinore Valley Municipal Water District we have Darcy Burke coming to give us a report of what we can expect from the water utility and the state of California.

No Farmers No Food an Epoch Times Documentary

"No Farmers No Food: Will You Eat The Bugs?" is an Epoch Original documentary exposing the hidden agenda behind global "Green Policies," the untold stories of farmers forced out of business, the disruption this will have on our food supply, and why edible bugs are suddenly being pushed to the fore as a "Global Green Solution."

EpochTV's "Facts Matter" host Roman Balmakov traveled around the world to over 25 locations and interviewed over 50 farmers, scientists, and experts in the United States, The Netherlands, and Sri Lanka to get to the truth behind this global agenda and investigate the coming global food crisis that is being ignored by the world's media.

History has a tendency to rhyme. In the 1950s, Chinese communist leader Mao Zedong sold the "Great Leap Forward" to the public under

the banner of progress, but his policies led to the largest man-made famine in history, with over 50 million dying of hunger. The UN's "green policies" appear to have the hallmarks of a new "Green Leap Forward", they might sound good on paper, but in practice they undermine our food security, property rights, water rights, and represent an existential threat to our liberties as free citizens. A famous quote reads "Who controls the food supply controls the people".

This documentary is important for everyone to watch, not just for knowing what's on your dinner plate but also to have the knowledge to prevent another man-made famine in the future and protect your freedoms and liberties.

Darcy Burke

From the board of directors of the Elsinore Valley Municipal Water District we have Darcy Burke coming to give us a report of what we can expect from the water utility.

Director Burke has served on several committees, and as District representative for multiple organizations, including: Water Planning Committee, WMWD Joint Committee, EMWD Joint Committee, Meeks and Daley Water Co., Canyon Lake City Council, Canyon Lake POA, Canyon Lake Roundtable, Urban Water Institute, and several others.

She has served as Vice President in 2021 and as Board President for 2022.
